

Please find **4 forms attached** and **4 steps below** required for a Subutex application through the Health Canada Special Access Program.

1. Fill out the **HC Form A** and email it to Rose Marie Barone ([rosemarie.barone@indivior.com](mailto:rosemarie.barone@indivior.com)) to obtain Indivior's pre-approval confirmation letter (*please don't forget to indicate the patient's EDD, you may do so in Section D*). \*if at this point you already have the 3 forms from step 3 signed, you may send as well.
2. Once you receive the **Indivior pre-approval confirmation**, you must fax it to Health Canada (fax 613-941-3194) with the HC Form A. Usually within 24-48 hours, Health Canada will fax you back a **Letter of Authorization** or a Notice of Incomplete.
3. Once you receive the Letter of Authorization from Health Canada, you must email it along with the other **3 forms** (Physician's Agreement, Patient Informed Consent, Narcotic Controlled Substance Order Form) which must all be signed to Rose Marie ([rosemarie.barone@indivior.com](mailto:rosemarie.barone@indivior.com)).
4. Once Indivior receives the **Health Canada Letter of Authorization and the 3 forms**, we will ship the Subutex. It takes approximately 2-3 business days to deliver.
